Summary

Full-stack software engineer specializing in backend systems, ETL pipelines, and applied AI using Python (FastAPI, Django Ninja) and TypeScript (SvelteKit, Next.js) on PostgreSQL. Shipped an enterprise asset integrity platform decommissioning a 264 MB Excel workflow with Celery/Redis asynchronous batch processing, automated QA/compliance validation engines, 800+ automated tests, and zero-downtime Docker deployments to AWS and GCP.

Experience

Software Engineer Intern May 2026 – Present

Artiselite Sdn. Bhd. *Kuala Lumpur, Malaysia*

- Replaced a 264 MB Excel workflow with a production-grade asset integrity platform for Corroserv and enterprise oil & gas clients (Django Ninja, PostgreSQL, Celery/Redis, SvelteKit).
- Robust Data Ingestion & Export: Built resilient ETL pipelines handling complex, 35-column anomaly spreadsheets and multi-photo uploads, featuring automatic schema resolution, cell-anchored Excel photo exports, and universal in-app document previews.
- Automated QA/QC Inspections: Created a multi-cycle post-repair inspection engine automating pass/fail grading across 5 core composite parameters (surface profile, DFT, hardness), complete with automated summary reports and QR warranty certificates.
- Enterprise Integrations: Developed six core ITSM modules using FastAPI and SvelteKit with SLA tracking, while modernizing ERP procurement, general ledger accounting, and JasperReports PDF generation.
- DevOps & Reliability: Automated zero-downtime Docker deployments to AWS (EC2/ECR) via GitHub Actions, establishing full test suites (800+ pytests and vitests) that eliminated regression downtime.

Software Engineer Intern Feb 2026 – May 2026

AI Sales Dr Pte. Ltd. *Kuala Lumpur, Malaysia*

- Owned the full-stack TypeScript/Next.js, Python/FastAPI, and Supabase/PostgreSQL codebase; integrated Groq LLMs for automated inbound lead qualification and pipeline processing.
- Built and optimized multi-step n8n automation workflows; containerized and deployed backend infrastructure on GCP Cloud Run using Docker.

Information Technology Intern Mar 2022 – Jul 2022

British Management University *Tashkent, Uzbekistan*

- Maintained university website infrastructure and database content using WordPress; resolved hardware, networking, and software issues to ensure high system uptime.

Education

University of Malaya Kuala Lumpur, Malaysia

Bachelor of Computer Science (Information Systems) *Oct 2022 – Sep 2026*

- CGPA: 3.39 | Gold Medalist, 2025 MIQ Taekwondo

British Management University Tashkent, Uzbekistan

Foundation Diploma in Business | CGPA: 3.85 (Silver stipend for Academic Merit) *Sep 2021 – Jun 2022*

Presidential School in Tashkent Tashkent, Uzbekistan

High School Diploma (Silver Medal), STEAM curriculum, AS & A Levels | Mathematics, Physics and Computer Science *Sep 2019 – Jun 2021*

Projects

AI Sales DR. Next.js, FastAPI, Supabase, Groq LLM API, Docker, GCP Cloud Run. Full-stack lead generation web app turning inbound interest into qualified meetings with automated LLM reasoning. (Live App)

OrderSmart – ML Delivery Predictor. Python, XGBoost, Scikit-learn, Pandas, Gradio. Built regression pipeline forecasting delivery delays using environmental and logistical features. (Live Demo) — Code

Customer Churn Predictor. Python, Scikit-learn, XGBoost, Pandas, Gradio. Built classification model detecting at-risk accounts on imbalanced datasets with feature scaling. (Live Demo) — Code

Instagram Viewer & Blocker. Vanilla JS, Manifest V3, GraphQL API. Browser extension on Chrome and Firefox with anonymous API fallbacks and zero client-data tracking. (Firefox) — Code

FitHub. Node.js, Express, MongoDB, Chart.js, Docker, GCP. Health and wellness platform with MVC architecture, session auth (bcrypt), meal discovery API, and trend analytics. (Live App) — Code

boymurodov.com. React 19, TypeScript, Vite, Docker, GCP Cloud Run. High-performance personal portfolio with automated CI/CD and near-perfect Lighthouse scores. (Live App) — Code

Technical Skills

Languages: Python, TypeScript, JavaScript, SQL, HTML/CSS

Frameworks & Backend: FastAPI, Django, Django Ninja, SvelteKit, Next.js, React, Node.js, Express, REST APIs, Celery, Redis, SQLAlchemy, Alembic, Tailwind CSS, pytest, vitest, JasperReports

Data, AI & Databases: PostgreSQL, Supabase, MongoDB, MinIO (S3), Pandas, NumPy, Scikit-learn, XGBoost, ETL/ELT Pipelines, Batch Processing, Data Cleansing, LLM API Integration

Cloud, DevOps & Security: AWS (EC2, ECR), GCP (Cloud Run), Docker, Docker Compose, Git, CI/CD, Linux/Bash, Cisco CCNAv7 (Networking & Security foundations)

Certifications

Anthropic: Claude Code 101 | **IBM:** Exploratory Data Analysis for Machine Learning | **Cisco:** CCNAv7: Introduction to Networks

Coursera: Data Analysis with Excel | **Cambridge A Levels:** Mathematics (Grade A) | **IELTS Academic:** Overall Band Score 7.0
