SUMMARY

Software Engineer and final-year Computer Science student building full-stack products across Python (FastAPI, Django) and TypeScript (SvelteKit, Next.js) on PostgreSQL. Experienced in REST APIs, multi-tenant architecture, service-layer design, Celery/Redis background jobs, database migrations, automated testing, and Docker-based deployments to AWS and GCP.

EXPERIENCE

Software Engineer Intern

Artiselite Sdn. Bhd.

May 2026 – Present

Kuala Lumpur, Malaysia

- Built six IT Service Management (ITSM) modules end-to-end — incident management, service catalogue, knowledge base, problem management, business units, and approval workflows — on FastAPI, SQLAlchemy, and PostgreSQL with a SvelteKit front end.
- Delivered the REST routers, service-layer logic, Alembic migrations, and Celery/Redis background jobs behind those modules, covered by HTTP-level pytest suites and deployed to AWS EC2 via Docker Compose and SSH.
- Delivered full-stack customizations to the Myttem OS ERP (Django, Celery, Redis backend; SvelteKit front end) — free-text delivery-order PO numbers, service-request-optional invoicing, and a customer-reference field on quotations — spanning serializers, models, database migrations, Svelte UI, and regression tests.
- Refactored the multi-tenant Django procurement workflow (Purchase Request to RFQ to supplier quotes to Purchase Order) and resolved a blocking migration-graph conflict; authored and maintained JasperReports (JRXML) templates for client-branded quotation and delivery-order PDFs; hardened continuous integration by clearing the Ruff (391 violations to 0) and pytest (52 failures to 0) suites.

Software Engineer Intern

AI Sales Dr Pte. Ltd.

Feb 2026 – May 2026

Kuala Lumpur, Malaysia

- Owned the full-stack TypeScript/Next.js, Python/FastAPI, and Supabase/PostgreSQL codebase.
- Assisted in optimizing n8n automation workflows.
- Deployed and managed backend infrastructure on GCP using Docker.

Information Technology Intern

British Management University

Mar 2022 – Jul 2022

Tashkent, Uzbekistan

- Maintained and improved university website using WordPress.
- Resolved hardware and software issues to ensure system uptime.

EDUCATION

University of Malaya

Bachelor of Computer Science (Information Systems)

Kuala Lumpur, Malaysia

2023 – 2026

- CGPA: 3.39
- Extracurriculars: Gold Medalist, 2025 MIQ Taekwondo Championship, Lightweight 18–35.

British Management University

Foundation Diploma in Business

Tashkent, Uzbekistan

2021 – 2022

- CGPA: 3.85 | Silver stipend awarded for Academic Merit
- Extracurriculars: Toastmasters club public speaker.

Presidential School in Tashkent

High School Diploma, AS & A Levels

Tashkent, Uzbekistan

2019 – 2021

- Silver Medal awarded for Academic Merit

PROJECTS

Instagram Viewer & Blocker. Vanilla JS, Manifest V3, Instagram private GraphQL API. ([Try it here](#)) — [Show Code](#)
boymurodov.com. React 19, TypeScript, Vite, Docker, GCP Cloud Run. ([Try it here](#)) — [Show Code](#)

FitHub. Node.js, Express, MongoDB, EJS, Docker, GCP. ([Try it here](#)) — [Show Code](#)

OrderSmart. Python, XGBoost, Gradio, Pandas, Hugging Face Spaces. ([Try it here](#)) — [Show Code](#)

Customer Churn Predictor. Python, Scikit-learn, XGBoost, Hugging Face. ([Try it here](#)) — [Show Code](#)

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript

Frameworks & Tools: Next.js, React, Svelte, SvelteKit, Node.js, FastAPI, Django, REST APIs, SQLAlchemy, Alembic, Celery, Redis, JasperReports, pytest, Tailwind CSS, n8n, Docker, Docker Compose, Git, CI/CD, SSH

Databases: PostgreSQL, Supabase, MongoDB, SQL

Cloud: Google Cloud Platform (GCP), Amazon Web Services (AWS)

CERTIFICATIONS

[Claude Code 101](#) — Anthropic Education

[Exploratory Data Analysis for Machine Learning](#) — IBM

[Introduction to Data Analysis using Microsoft Excel](#) — Coursera

Cambridge International AS & A Level Mathematics — Grade A

IELTS Academic — Overall Band Score 7.0, 2021
